## Interim Report second quarter and first half year 2016

## Arming the patient's immune system to fight cancer

Targovax is a clinical stage immuno-oncology company developing targeted immunotherapy treatments for cancer patients. Targovax has a broad and diversified immune therapy portfolio and aims to become a world leader in its area. The company is currently developing two complementary and highly targeted approaches in immuno-oncology.

ONCOS-102 is a product candidate derived from a virus-based immunotherapy platform based on engineered oncolytic viruses armed with potent immune-stimulating transgenes targeting solid tumors. This treatment is designed to reactivate the immune system's capacity to recognize and attack cancer cells.

The product candidates TG01 and TG02 constitute a peptide-based immunotherapy platform targeting the difficult to treat RAS mutations ${ }^{1}$ found in more than $85 \%$ of pancreatic cancers, $50 \%$ of colorectal cancer and 20-30\% of all cancers. Targovax is working towards demonstrating that TG vaccines will prolong time to cancer progression and increase survival.

These product candidates will be developed in combination with multiple treatments, including checkpoint inhibitors in several cancer indications. Targovax also has a number of other cancer immune therapy candidates in the early stages of development.

## HIGHLIGHTS

- Recruited and dosed the first patient in the Phase $\mathrm{Ib} / \mathrm{II}$ trial evaluating ONCOS-102 for the treatment of malignant pleural mesothelioma (MPM), a rare type of cancer in the lining of the lung, in combination with chemotherapy
- Reported encouraging interim immunological response from the second cohort of the Phase I/II TG01 trial, assessing early immune activation
- Completed recruitment in the open label Phase I/II TG01 trial in combination with chemotherapy of patients with resected pancreatic cancer. 32 patients are included in the trial
- Confirmed synergism between ONCOS-102 and chemotherapy through in vivo research and published data in The International Journal of Cancer
- Received US patent for lead viral product ONCOS-102
- Raised NOK 110 m in new equity, securing funding for further development of the company's ongoing and planned trials
- In July, listed the shares on Oslo Axess
- In August, raised NOK 4 m in a subsequent repair offering

2Q 2015 and 1H 2015 numbers are pre combination with Oncos and includes only the Norwegian entity.

## OPERATIONAL REVIEW

Since the merger with Oncos in 2015, Targovax has progressed its clinical plan according to schedule. During the second quarter of 2016, Targovax continued development of its product candidates, both through its own clinical trials and through collaborations.

Targovax's strategy is to apply its two immunotherapeutic technologies broadly, by starting several trials in multiple indications. Currently, Targovax has:

- two technology platforms
- two ongoing clinical trials
- three product candidates in development
- four orphan drug indications
- four additional combination trials to start in 2H 2016, two of which are with scientific collaboration partners
- six cancer indications
- six planned efficacy readouts anticipated in 2017

## Clinical development

## TG01 in pancreatic cancer

Targovax has an ongoing open label, Phase I/II clinical trial with TG01, GM-CSF ${ }^{2}$ and gemcitabine (chemotherapy) as adjuvant therapy for treating patients with resected adenocarcinoma of the pancreas. The trial is structured as a first cohort of 19 patients and a second cohort of 13 patients on a modified vaccination schedule. The recruitment to this trial was completed in May 2016 and the patients will be monitored for 24 months. The results, including two-year survival data in both cohorts, will be available in 1 H 2017 and 1H 2018 respectively.

In March 2015, Targovax showed that TG01, administered in combination with gemcitabine, induced and enhanced RAS specific T-cell immune responses.

In March 2016, Targovax conducted a predetermined interim survival analysis of the first cohort indicating promising survival data. Of the 19 patients included in the cohort, 15 patients provided consent to be followed up for survival and four patients did not. The 1 -year survival data showed that 14 out of these 15 patient were alive and one had passed away due to causes assessed by the investigator as unrelated to the patients underlying cancer. The regimen was generally well tolerated.

In April 2016, Targovax reviewed interim data for early immune activation (DTH responses) in the modified vaccination cohort. Four out of the five first recruited patients (of a total of 13 patients) showed an eight-week immune response. These results were in line with the analysis of the first cohort (in March 2015) where 18 out of 19 patients were eligible for immune response assessment and 15 patients had established a detectable early immune response.

## TG02 in colorectal cancer

This is an open label, non-randomized Phase lb exploratory trial to determine safety and anti-tumor immune activation of TG02, first as monotherapy then in combination with a checkpoint inhibitor, in patients with locally recurrent rectal cancer scheduled to have surgery.

Currently, the plan is to include approximately 20 patients in Australia. The trial is planned to start its recruitment during the second half of 2016.

## ONCOS-102 in mesothelioma

This trial is a randomized Phase II open label trial with a Phase lb safety lead-in of ONCOS-102 and pemetrexed/cisplatin, the standard of care chemotherapy, in patients with un-resectable malignant pleural mesothelioma. The trial is planned to include six patients in the lead-in for safety evaluation of the combination treatment, and approximately 24 patients in a randomized part to compare the tumor targeted immune activation of the combination treatment with the standard of care chemotherapy.

In June 2016, the first patient was recruited into the safety cohort and dosed.

## ONCOS-102 in melanoma

The melanoma trial is an open-label Phase I trial exploring the safety and immune activation as well as clinical response of sequential treatment with ONCOS-102 and a checkpoint inhibitor in patients with advanced melanoma who have not responded to prior treatment with checkpoint inhibitors. The goal of the trial is to investigate whether these patients will respond to a checkpoint inhibitor after the ONCOS-102 priming treatment. The trial is planned to include approximately 12 patients in the US and will, according to plan, commence in the second half of 2016. Immune activation data of initial treatments with ONCOS-102 is expected in the second half of 2017. Clinical results from the

[^1]sequential treatment are expected in first half of 2018.

## Clinical trials with collaboration partners

In late 2015, Targovax entered into agreements with US-based Ludwig Cancer Research (LCR) and Cancer Research Institute (CRI). Targovax also entered into an agreement with the Czech biotech company Sotio. The intention of both collaborations is to execute joint clinical trials.

Through these collaborations, Targovax gets access to leading expertise and extensive clinical trial networks.

The joint trial with Ludwig and CRI includes testing and evaluation of ONCOS-102 in combination with other synergistic immunotherapies, such as checkpoint inhibitors, in various oncology indications.

The objective of the Sotio collaboration is to study the safety and tolerability when combining ONCOS-102 and Sotio's dendritic cell therapy DCVAC/PCa in prostate cancer patients.

In both cases, the sponsor of the trial will be the collaboration partner. The plan is to recruit the first patients into both these trials during the 2H 2016. After the first patients have been recruited, details about the trials and combination products will be made public.

## Preclinical development

The International Journal of Cancer published preclinical in vivo data in a mesothelioma xenograft model, demonstrating synergy of ONCOS-102 with pemetrexed and cisplatin. These findings support the rationale for the ongoing trial of ONCOS-102 in combination with pemetrexed and cisplatin in patients suffering from malignant mesothelioma.

[^2]
## IPR / Market exclusivity

Targovax owns a patent portfolio protecting its pipeline with different families of patents and patent applications covering its product candidates in development as well as potential future product candidates. The company continuously works to strengthen its patent portfolio.

The company has Orphan Drug status for ONCOS-102 within mesothelioma, ovarian cancer and soft tissue sarcoma ${ }^{3}$ in the EU and USA, ensuring 10 and 7 years of market protection respectively from the date of market approval. TG01 in pancreatic cancer has previously been granted Orphan Drug status in the EU and USA. In June, Targovax was granted a US patent for its oncolytic virus product ONCOS-102.

## FINANCIAL REVIEW

As Targovax merged with Oncos on 2 July 2015, the figures in this report include the combined businesses only from the second half of 2015. Figures in parenthesis in this section are from the comparable period in 2015, pre-merger.

## Results second quarter 2016

As a pre-commercial R\&D-focused biotech company, Targovax does not have revenues.

Operating expenses during the second quarter amounted to NOK 32m (13m).

The higher operating expenses reflect the acquisition of Oncos as well as more activities in all areas of the business.

The net loss amounted to NOK 33m during the quarter ( 13 m ).

## Results first half year 2016

Operating expenses amounted to NOK 63 m (20m) during the period. In comparison, the sum of pro forma operating
expenses for the two constituent pre combination companies (Targovax AS and Oncos OY) amounted to NOK 29m in 1H 2015. The increase reflects the higher level of activity.

The net loss for the half year amounted to NOK 65m (20m).

## Financial position and cash flow

Net cash at the end of the quarter amounted to NOK 107m, compared to NOK 141 m three months previously and NOK 174 m at the end of 2015.

Cash outflow during the quarter was primarily driven by operating activities, and net cash flow from operating activities during the period was negative by NOK 34 m , compared to negative NOK 33m in the first quarter.

By the end of the period, Targovax' interest bearing debt amounted to NOK 38m, all from TEKES, the Finnish Funding Agency for Technology and Innovation.

In July 2016, Targovax raised NOK 110m in new equity, issuing $14,685,000$ shares at NOK 7.50 per share. The transaction closed on 7 July 2016 and Targovax listed on Oslo Axess under the ticker TRVX. In August 2016, Targovax raised an additional NOK $4 m$ in a subsequent repair offering.

Proceeds from the placement will be used to fund clinical studies and general corporate purposes.

## SHARE INFORMATION

Targovax listed its shares publically on 8 July 2016 on Oslo Axess. After the private placement and the subsequent offering, there were $42,1 \mathrm{~m}$ shares outstanding, distributed to approx. 250 shareholders. The 20 largest shareholders controlled some 80 percent of the shares. The estimated share ownership situation on 17

August 2016 (after the fund raising in July and August) ${ }^{4}$ was:

|  | Shareholder |  | Estimated ownership |  |
| :---: | :---: | :---: | :---: | :---: |
|  |  |  | Shares m | Relative |
| 1 | HealthCap | Sweden | 11,2 | 26,5 \% |
| 2 | RadForsk | Norway | 4,1 | 9,7\% |
| 3 | Nordea | Norway | 2,7 | 6,3\% |
| 4 | Datum Invest AS | Norway | 2,5 | 5,8\% |
| 5 | Rasmussengruppen | Norway | 2,1 | 5,0\% |
| 6 | KLP | Norway | 2,1 | 4,9\% |
| 7 | Swedbank | Norway | 1,4 | 3,3 \% |
| 8 | Aric Funds | Norway | 0,9 | 2,2 \% |
| 9 | Statoil | Norway | 0,8 | 2,0 \% |
| 10 | Danske Bank (nom.) | Denmark | 0,8 | 1,8 \% |
| 11 | Timmuno AS | Norway | 0,7 | 1,7 \% |
| 12 | Prieta AS | Norway | 0,7 | 1,7 \% |
| 13 | Sundt AS | Norway | 0,7 | 1,6 \% |
| 14 | Nordnet Bank AB (nom.) | Sweden | 0,6 | 1,5 \% |
| 15 | Pohjola | Finland | 0,6 | 1,4\% |
| 16 | Birk Venture AS | Norway | 0,5 | 1,2 \% |
| 17 | MP Pensjon PK | Norway | 0,5 | 1,2 \% |
| 18 | Eltek Holding AS | Norway | 0,4 | 1,0\% |
| 19 | Storebrand Vekst | Norway | 0,4 | 1,0\% |
| 20 | Pactum AS | Norway | 0,4 | 0,9 \% |
|  | Top 20 |  | 34,1 | 80,9 \% |
|  | Total |  | 42,1 |  |

The closing price on 30 June 2016 was NOK 8.00 per share. The closing price on the first day of listing, 8 July, was NOK 7.90, corresponding to a market capitalization of NOK 328m.

## SUBSEQUENT EVENTS

The following events with financial or accounting relevance took place after 30 June 2016:

- Targovax raised NOK 110 m in a private placement transaction that concluded on 7 July
- Following the private placement, the company completed a subsequent offering, raising proceeds of NOK 4 m , through a share issue of 0.5 m shares at NOK 7.50 per share. Following the transaction, the total number of shares outstanding in Targovax amounted to 42.1 m .

[^3]
## RISKS AND UNCERTAINTY FACTORS

 FOR THE SECOND HALF 2016The company's business is exposed to a number of general operational and financial risks which have been explained in Targovax's annual report 2015 as well as in the recent prospectus, both available on www.targovax.com.

## OUTLOOK

Targovax's focus during the next 12-18 months will be to start and progress the previously described trials with ONCOS102 in melanoma and TG02 in colorectal cancer. In addition, the company will advance the ongoing trial of ONCOS-102 in mesothelioma and continue the follow-up phase of the TG01 trial in resected pancreatic cancer.

Furthermore, Targovax, together with its clinical trial collaborators Ludwig/CRI and Sotio are planning to start trials in various solid tumor indications.

Targovax is expecting a total of six separate data readouts during 2017, with the first readouts in the first half of 2017.

## RESPONSIBILITY STATEMENT

We confirm, to the best of our knowledge that the financial statements for the period 1 January to 30 June 2016 have been prepared in accordance with current applicable accounting standards, and give a true and fair view of the assets, liabilities, financial position and profit or loss of the entity and the group taken as a whole. We also confirm that the Board of Directors' Report includes a true and fair view of the development and performance of the business and the position of the entity and the group, together with a description of the principal risks and uncertainties facing the entity and the group.

## Notes

## 1. General information

Targovax ASA ("the Company") and its subsidiaries (together the Group) is a clinical stage immunooncology company dedicated to the development of targeted immunotherapy treatments for cancer patients.

The Group is targeting complementary approaches to cancer immunotherapy: A cancer vaccine platform developed for patients with RAS-mutated cancers and an immunotherapy platform based on engineered oncolytic viruses armed with potent immune-stimulating transgenes for patients with solid tumors. Both treatment approaches harness the patient's own immune system to fight the cancer.

The Company is a limited public liability company incorporated and domiciled in Norway and listed on the Oslo Axess Stock Exchange in Norway. The address of the registered office is Lilleakerveien 2C, 0283 Oslo, Norway.

The condensed interim financial information are unaudited. These financial statements were approved for issue by the Board of Directors on 24 August, 2016.

## 2. Accounting principles

The interim condensed consolidated financial statements for the Group are prepared using the same accounting principles and calculation methods as used for the statutory, annual financial statements 2015 for Targovax ASA.

The accounting principles used have been consistently applied in all periods presented, unless otherwise stated.

Amounts are in thousand Norwegian kroner unless stated otherwise. The functional currency of the Group is NOK (Norwegian kroner).

### 2.1 Basis of preparation

The quarterly financial statements of the Group have been prepared in accordance with IAS 34 Interim Financial Reporting, as adopted by the EU.

### 2.2 Standards and interpretations in issue but not yet adopted

At the date of authorization of these quarterly financial statements, there are no Standards or Interpretation that have been issued where the Management considers any material impact.

### 2.3 Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 30 June 2016. The subsidiaries include Targovax OY, located at Helsinki, Finland and Oncos Therapeutics AG, Meggen, Switzerland, all 100\% owned and controlled subsidiaries. Targovax OY is the parent company of Oncos Therapeutics AG.

### 2.4 Going concern

As a result of the private placement and the subsequent offering in the third quarter 2016 and the current liquidity situation, Targovax's Directors expect that the Group has available financial resources sufficient for all planned activities, notably six clinical trials, in the next twelve months as of 24 August 2016. The Group therefore continues to adopt the going concern basis in preparing its consolidated financial statements.

## 3. Research and development expenses

The Group is developing new products. Uncertainties related to the regulatory approval process and results from ongoing clinical trials, generally indicate that the criteria for asset recognition is not met until the time when marketing authorization is obtained from relevant regulatory authorities.

The following research and development expenditures have been expensed:

| (Amounts in NOK thousands) | 2Q 2016 |  | 2Q 2015 |  | 1H 2016 |  | 1H 2015 |  | 2015 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Total | R\&D | Total | R\&D | Total | R\&D | Total | R\&D | Total | R\&D |
| External R\&D expenses | 11679 | 11679 | 3862 | 3862 | 22497 | 22497 | 5379 | 5379 | 25231 | 25231 |
| Payroll and related expenses | 12287 | 6654 | 3712 | 1510 | 25485 | 11977 | 6687 | 2720 | 35431 | 13497 |
| Other operating expenses | 8473 | 444 | 5225 | 93 | 15433 | 600 | 7453 | 207 | 29100 | 384 |
| Total | 32439 | 18777 | 12800 | 5465 | 63415 | 35074 | 19520 | 8306 | 89762 | 39111 |

## 4. Government grants

Government grants have been recognized in profit or loss as a reduction of the related expense with the following amounts:

| (Amounts in NOK thousands) | 2Q 2016 | 2Q 2015 | $\mathbf{1 H 2 0 1 6}$ | $\mathbf{1 H} \mathbf{2 0 1 5}$ | $\mathbf{2 0 1 5}$ |
| :--- | ---: | ---: | ---: | ---: | ---: |
| External R\&D expenses | 1883 | 3570 | 4605 | 4563 | 6891 |
| Payroll and related expenses | 446 | 951 | 1270 | 1983 | 2225 |
| Other operating expenses | 31 | - | 37 | - | - |
| Total | $\mathbf{2 3 6 0}$ | $\mathbf{4 5 2 1}$ | $\mathbf{5 9 1 2}$ | $\mathbf{6 5 4 6}$ | $\mathbf{9 1 1 5}$ |

For the period 2013 through 2016, the Group has been awarded a grant from The Research Council (program for user-managed innovation arena (BIA)) of NOK 12.4 m in total. For the first half and second quarter 2016, the Group has recognized NOK 2.1 m and NOK 0.5 m as cost reduction in External R\&D expenses, Payroll and related expenses and Other Operating expenses.

R\&D projects have been approved for SkatteFunn for the period 2011 through 2016. For the first half and second quarter 2016, the Group has recognized NOK 3.9 m and NOK 1.8 m as cost reduction in External R\&D expenses, Payroll and related expenses and Other Operating expenses.

## 5. Payroll and related expenses

Total payroll and related expenses for the Group are:

| (Amounts in NOK thousands) | 2 Q 2016 | 2 Q 2015 | 1 H 2016 | 1 H 2015 | 2015 |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Salaries and bonus | 6905 | 3010 | 14253 | 5825 | 26154 |
| Employer's national insurance contributions | 825 | 432 | 1705 | 783 | 3278 |
| Share-based compensation ${ }^{1}$ | 4471 | 856 | 9015 | 1458 | 5875 |
| Pension expenses - defined contribution plan | 472 | 147 | 1228 | 267 | 1723 |
| Other | 60 | 218 | 554 | 339 | 626 |
| Governmental grants | -446 | -951 | -1270 | -1983 | -2225 |
| Total payroll and related expenses | $\mathbf{1 2} 287$ | $\mathbf{3 7 1 2}$ | $\mathbf{2 5 4 8 5}$ | $\mathbf{6} \mathbf{6 8 7}$ | $\mathbf{3 5 4 3 1}$ |
| 1) Share-based compensation has no casheffect. |  |  |  |  |  |
|  |  |  |  |  |  |
| Number of employees calculated on a full-time basis as at end of period | 26.7 | 9.5 | 26.7 |  | 9.5 |
| Number of employees as at end of period | 27 | 10 | 27 | 26.5 |  |

## 6. Intangible assets

Recognized intangible assets in the Group amounts to NOK 346 m as of 30 June 2016. This is a decrease, as of 31 December 2015, from NOK 358m due to NOK/EUR foreign exchange fluctuations. The intangible assets are derived from the acquisition of Oncos Therapeutics OY, which was completed in July 2015.

The intangible assets are related to the development of ONCOS-102, which is a virus-based immunotherapy platform.

Intangible assets are tested for impairment at least annually, or when there are indications of impairment.

As per 30 June, the market value of the Company, according to shares traded on the NOTC, was 215 m , which is 142 m less than book value of equity. However, the impairment test assessed as at 30 June, based on the same key assumptions as the impairment test as at 31 December 2015, indicated that the value of the intangible assets was NOK 368m which exceeds the book value with NOK 11m. Hence, no need for impairment of the intangible assets as at 30 June. See note 16 in the Annual Report 2015 for more information about the impairment test.

## 7. Interest bearing debt (TEKES)

The Group has received three R\&D loans, for the commercialization of ONCOS-102, from TEKES under loan agreements dated September 2010, January 2012 and December 2013, respectively, in the total outstanding amount of EUR 5842312 as of 30 June 2016.

TEKES is a publicly financed funding agency that finances research and development activities for young innovative companies in Finland. No new TEKES loans have been issued during the first half 2016. Consequently, no grant element is recognized. Amortized interests are charged to financial expenses amounting to NOK 1.4 m during the first half of 2016 and NOK 0.7 m during second quarter of 2016.

See note 22 in the Annual Report 2015 for more information about the TEKES loans.

## 8. Fair value of financial instruments

The carrying value of receivables, cash and cash equivalents, borrowings, deferred tax, and other short-term payables and accrued liabilities are assessed to approximate fair value.

| (Amounts in NOK thousands) | 1H2016 |  | 1H2015 |  | FY2015 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Carrying amounts | Fair value | Carrying amounts | Fair value | Carrying amounts | Fair value |
| Receivables | 17124 | 17124 | 8918 | 8918 | 11557 | 11557 |
| Cash and cash equivalents | 107251 | 107251 | 44465 | 44465 | 173898 | 173898 |
| Total financial assets | 124375 | 124375 | 53384 | 53384 | 185455 | 185455 |
| Interest-bearing borrowings | 38243 | 38243 | - | - | 38112 | 38112 |
| Deferred tax | 56688 | 56688 | - | - | 58709 | 58709 |
| Accounts payable and other current liabilities | 3588 | 3588 | 3588 | 3588 | 6307 | 6307 |
| Accrued public charges | 2413 | 2413 | 1218 | 1218 | 1826 | 1826 |
| Other short-term liabilities | 14192 | 14192 | 6103 | 6103 | 17287 | 17287 |
| Total financial liabilities | 115125 | 115125 | 10909 | 10909 | 122241 | 122241 |

The tables below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: Inputs other than quoted prices including Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) - Level 3: Inputs in asset or liability that are not based on observable market data (that is, unobservable inputs)

As at 30 June 2016:

| (Amounts in NOK thousands) | Level 1 | Level 2 | Level 3 | Total |
| :--- | ---: | ---: | ---: | ---: |
| Interest-bearing borrowings | -- | - | 38243 | 38243 |
| Total financial instruments at fair value | - | - | $\mathbf{3 8} 243$ | $\mathbf{3 8 2 4 3}$ |

As at 31 December 2015:

| (Amounts in NOK thousands) | Level 1 | Level 2 | Level 3 | Total |
| :--- | ---: | ---: | ---: | ---: |
| Interest-bearing borrowings | - | - | 38112 | 38112 |
| Total financial instruments at fair value | - | - | $\mathbf{3 8 1 1 2}$ | $\mathbf{3 8 1 1 2}$ |

At the end of first half 2015 there were no financial instruments carried at fair value to measure.

## 9. Share capital and number of shares

Share capital as at 30 June 2016 is 2690537 (30 June 2015: 942 940) comprising 26905367 ordinary shares at nominal value NOK 0.10 (30 June 2015: 9429404 at NOK 0.10). All shares carry equal voting rights.

The movement in the number of shares during the period was as follows:

|  | Q2 2016 | Q2 2015 | 6M2016 | 6M2015 | FY 2015 |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Ordinary shares at beginning of period | 26883808 | 9429404 | 26883808 | 9429404 | 9429404 |
| Share issuance - private placement | 0 | 0 | 0 | 0 | 8000000 |
| Aquisition of Oncos Therapeutics OY | 0 | 0 | 0 | 0 | 9429404 |
| Share issuance, employee share options | 21559 | 0 | 21559 | 0 | 25000 |
| Ordinary shares at end of period | $\mathbf{2 6 ~ 9 0 5 ~ 3 6 7 ~}$ | $\mathbf{9 4 2 9 4 0 4}$ | $\mathbf{2 6 9 0 5 3 6 7}$ | $\mathbf{9 4 2 9 4 0 4}$ | $\mathbf{2 6 8 8 3 8 0 8}$ |

The 20 largest shareholders are as follows at 30 June 2016:

| Shareholder | \# shares | $\%$ |
| :--- | ---: | ---: |
| HealthCap | 8362736 | $31.1 \%$ |
| Radiumhospitalets Forskningsstiftelse | 3410589 | $12.7 \%$ |
| Trojan AS | 2462000 | $9.2 \%$ |
| Arctic Funds PLC | 907000 | $3.4 \%$ |
| Timmuno AS | 724650 | $2.7 \%$ |
| Prieta AS | 720000 | $2.7 \%$ |
| Portia AS | 599561 | $2.2 \%$ |
| Danske Bank AS | 587971 | $2.2 \%$ |
| Nordnet Bank AB | 569022 | $2.1 \%$ |
| KLP Aksje Norge VPF | 460000 | $1.7 \%$ |
| Eltek Holding AS | 442000 | $1.6 \%$ |
| Statoil Pensjon | 433716 | $1.6 \%$ |
| Storebrand Vekst | 426000 | $1.6 \%$ |
| Pactum AS | 400000 | $1.5 \%$ |
| Birk Venture AS | 378980 | $1.4 \%$ |
| Op-Europe Equity Fund | 357869 | $1.3 \%$ |
| Tobech Invest AS | 286449 | $1.1 \%$ |
| Viola AS | 280000 | $1.0 \%$ |
| Kommunal Landspensjonskasse | 270000 | $1.0 \%$ |
| Verdipapirfondet DNB Grønt NORDEN | 250919 | $0.9 \%$ |
| 20 largest shareholders | $\mathbf{2 2 3 2 9} 462$ | $\mathbf{8 3 . 0} \%$ |
| Other shareholders (193) | 4575905 | $17.0 \%$ |
| Total shareholders | $\mathbf{2 6} 905367$ | $\mathbf{1 0 0 . 0} \%$ |

HealthCap, Radiumhospitalets Forskningsstiftelse, Timmuno AS and Prieta AS have entered into lock-up agreements for their shares for the period until the earliest of:
(1) completion of an initial public offering
(2) the day falling 12 months after the completion of the private placement 9 July 2015

## Shareholdings Key management

The following table provides the total number of shares owned by the key management of the Group and member of the Board of Directors as of 30 June 2016:

| Name | Position | No. of shares outstanding at 30 June 2016 |
| :---: | :---: | :---: |
| Key management: |  |  |
| Gunnar Gårdemyr | Chief Executive Officer | 20000 |
| Magnus Jäderberg | Chief Medical Officer | 20000 |
| Jon Amund Eriksen | Chief Operating Officer | 724650 |
| Øystein Soug | Chief Financial Officer | 26600 |
| Anne-Kirsti Aksnes | VP, Clinical Development | 4000 |
| Tina Madsen | VP, Quality Assurance | 800 |
| Peter Skorpil | VP, Business Development | 4000 |
| Antii Vuolanto | Executive VP | 61773 |
| Total no. of shares owned by key management of the Group |  | 861823 |
| Board of directors: |  |  |
| Robert Burns | Board member | 29063 |
| Total no. of shares | rs of the Group | 29063 |

1 The shares are held through Timmuno AS
2 The shares are held through Abakus Invest AS
Jonas Einarsson, Chairman of the Board of Directors, is CEO in the Radium Hospital Research Foundation Johan Christenson and Per Samuelsson, both Member of the Board, are partners at HealthCap

Please see "Note 12 Subsequent events" for updated share capital, number of shares, 20 largest shareholders and shareholdings for key management per 23 August after the completion of private placement and subsequent offering in third quarter 2016.

## 10. Earnings per share

|  |  |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
| Amounts in NOK thousand | Q2 2016 | Q2 2015 | 1H2016 | 1H2015 | FY 2015 |
| Loss for the period | -33450 | -12756 | -64907 | -19507 | -91816 |
| Average number of outstanding shares during the period | 26895 | 9429 | 26895 | 9429 | 18150 |
| Earnings/ loss per share - basic and diluted | $\mathbf{- 1 . 2 4}$ | $\mathbf{- 1 . 3 5}$ | $\mathbf{- 2 . 4 1}$ | $\mathbf{- 2 . 0 7}$ | $\mathbf{- 5 . 0 6}$ |

Share options issued have a potential dilutive effect on earnings per share. No dilutive effect has been recognized as potential ordinary shares only shall be treated as dilutive if their conversion to ordinary shares would decrease earnings per share or increase loss per share from continuing operations. As the Group is currently loss-making an increase in the average number of shares would have anti-dilutive effects.

## 11. Share based payment

At the Extraordinary General Meeting in September 2015 the Board was authorized to increase the Group's share capital in connection with share incentive arrangements by up to $10 \%$ of the Share capital. The authorization was renewed at the Ordinary general meeting in April 2016.

The Group operates an equity-settled, share-based compensation plan, under which the entity receives
services from employees as consideration for equity instruments (options) in Targovax ASA.
Each share option converts into one ordinary share of the Company on exercise. Options may be exercised at any time from the date of vesting until expiry. The options generally vest over a period of four years and expire seven years after the grant date. In general, the exercise price of the options is set at the fair value of the shares at grant date.

During the first half of 2016, additional 75000 share options were granted to other employees, 21559 were exercised and 136067 were forfeited. A total of 2463263 options were outstanding at 30 June 2016.

The fair value of the options has been calculated at grant date. The fair value of the options was calculated using the Black-Scholes model. The expected volatility for options issued in first half 2016 is estimated at average of $83 \%$, based on the volatility of comparable listed companies. The volume weighted average interest rate applied to the share options grants in first half 2016 is $0.67 \%$.

|  | 1H 2016 |  | FY 2015 |  |
| :---: | :---: | :---: | :---: | :---: |
|  | No. of options | Weighted avg. excercise price (in NOK) | No. of options | Weighted avg. excercise price (in NOK) |
| Outstanding at 1 January | 2545889 | 23.25 | 100000 | 7.50 |
| Granted during the period | 75000 | 14.20 | 2090062 | 24.09 |
| Exercised during the period | -21559 | 0.51 | -25000 | 7.50 |
| Convertion of Oncos option program 2/7-2015 | - | - | 380827 | 21.77 |
| Forfeited | -136067 | 19.61 | - | - |
| Outstanding no. of options at end of period | 2463263 | 23.38 | 2545889 | 23.25 |

The following table shows the outstanding and granted options for shares to Key Management of the Group at 30 June 2016:

| Name | Position | Options |  |
| :---: | :---: | :---: | :---: |
|  |  | Granted | Outstanding |
|  |  | 1H2016 | 30.06.2016 |
| Key management: |  |  |  |
| Gunnar Gårdemyr | Chief Executive Officer | - | 500000 |
| Magnus Jäderberg | Chief Medical Officer | - | 390000 |
| Jon Amund Eriksen | Chief Operating Officer | - | 160000 |
| Øystein Soug | Chief Financial Officer | - | 390000 |
| Anti Vuolanto | Executive VP | - | 170742 |
| Anne Kirsti Aksnes | VP, Clinical Development | - | 53000 |
| Tina Madsen | VP, Quality Assurance | - | 53000 |
| Peter Skorpil | VP, Business Development | - | 45000 |
| Total option for shares to key management of the Group |  | - | 1761742 |
| Board of directors: |  | - |  |
| Robert Burns | Board member | - | 21235 |
| Total option for shares to the Board of Directors of the Group |  | - | 21235 |

No share options have been granted to Key Management from 30 June to 25 August 2016.

## Restricted Stock Units

The ordinary general meeting 13 April 2016 decided to remunerate the Board of directors with a combination of cash and Restricted Stock Units (RSUs).

The number of RSUs to be granted to the members of the board of directors is calculated as the NOK amount of the RSU opted portion of total compensation to the board member, divided by the market price for the Targovax ASA share. The market price is calculated as volume weighted average share price the 10 trading days prior to the grant date, NOK 12.20 for the grant at 13 April 2016.

The board members must elect to either (i) receive $100 \%$ of the compensation in RSUs, (ii) receive $1 / 3$ of the compensation in cash and $2 / 3$ in RSUs, or (iii) receive $2 / 3$ of the compensation in cash and $1 / 3$ in RSUs. The total compensation to each member of the board of directors for both the period 2015-2016 and 2016-2017 have been set out in the minutes from the ordinary general meeting.

A total of 129991 RSUs have thus been granted. The RSUs granted for the period 2015-2016 vested on 13 April 2016, while the RSUs granted for the period 2016-2017 will vest on 13 April 2017.

The following table shows the outstanding and granted RSU's to Board of Directors of the Group at 30 June 2016:

|  |  | RSUs |  |
| :--- | :--- | ---: | ---: |
| Name | Position | Granted | Outstanding |
|  |  | 1 H 2016 | $\mathbf{3 0 . 0 6 . 2 0 1 6}$ |
| Key management: |  |  |  |

| Diane Melleett | Board member | 34098 | 34098 |
| Eva-Lotta Alan | Board member | 23169 | 23169 |
| Lars Lund-Roland | Board member | 20811 | 20811 |
| RobertBurns | Board member | 40984 | 40984 |
| Total Restricted Stock Units to Board of Directors of the Group | $\mathbf{1 2 9 9 9 1}$ | $\mathbf{1 2 9 9 9 1}$ |  |

## 12. Subsequent events

Targovax raised NOK 110m in a private placement in third quarter 2016. The transaction was approved by the General Assembly on 6 July and Targovax was listed on Oslo Axess under the ticker TRVX at 8 July.

Following the private placement, the company completed a subsequent offering, raising proceeds of NOK 4 m , through a share issue of 543643 shares at NOK 7.50 per share. Following the private placement and the subsequent offering, the total share capital of Targovax is NOK 4213400.10 divided into 42134001 shares each with a nominal value of NOK 0.10.

## Changes in shareholders subsequent to June 302016

After the private placement and the subsequent offering in third quarter 2016, the 20 largest shareholders are as follows at 23 August 2016:

| Shareholder | \# shares | \% |
| :---: | :---: | :---: |
| Handelsbanken Stockh C/O Handelsbanken AS | 11155584 | 26,48 \% |
